

*Amendment to the Specification*

Please amend Paragraph [0027] located on Page 6 of the application with the following:

[0027] Outer shell 52 (FIGS. 1 and 8) engages outer surface 16 of protective shell 12. Outer shell 52 is preferably made of a thermoformed plastic material, i.e. PVC, or the like, however other suitable materials or manufacturing processes may be used. Outer shell 52 has vent openings 54 that correspond to vents 18 in protective shell 12. Outer shell 52 has a plurality of protrusions 56. Each of protrusions 56 is preferably elliptical or football shaped and has a longitudinal axis 58 that is aligned with a front to back ~~aeess~~ axis of the helmet 10. Each protrusion 56 preferably corresponds to a recessed area 22 for transmitting light from each of the plurality of LED lamps 50 located therein.
